

## **SHORT GUIDANCE TO THE MONTHLY LIST OF DETENTIONS OF THE PARIS MOU • INFORMATION IN THE LIST**

The monthly list of detentions of the Paris MOU contains information about ships which were detained in the Paris MOU region during the month under review.

An alphabetical index on ship's name and an index on IMO number are provided with the list.

The information listed for each ship is conform Annex 4 Publication of Information related to Detentions and Inspections. (As referred to in Section 5.2 of the Memorandum)

[http://www.parismou.org/Organization/2010.12.27/Memorandum\\_of\\_Understanding.htm](http://www.parismou.org/Organization/2010.12.27/Memorandum_of_Understanding.htm)

Some of these items require an explanation:

**RO related deficiencies:** a 'Yes' in this column indicates that one or more of the deficiencies mentioned under 'Reasons for detention' are the responsibility of the Recognized Organization which has issued the relevant certificate(s). **This is not necessarily the Recognized Organization mentioned in the list (see below)!**

**Port and date of release** from detention: details of detentions are entered in the information system of the Paris MOU after the ship has been released. Therefore, the details on a detention of a ship detained in September but released in October are only available in October.

**Recognized Organization:** the Recognized Organization mentioned is not necessarily the party issuing the certificates relevant for all deficiencies which were reasons for detention.

**'Ship allowed to sail to nearest repair yard for repairs':** in general, a ship is not released from detention before all necessary repairs have been made. However, sometimes it is not possible to repair all defects at the place of detention. Therefore, a detained ship may be allowed to sail to a repair yard without really being released from detention. In the list those cases are marked by the sentence 'Ship allowed to sail to nearest repair yard for repairs'.

### **• DIFFERENCE WITH FORMER DETENTION LIST**

Due to technical issues this list **was** not based on release date but on detention date.

The lists are from now on again based on the release date.

You can still use the current detention list for the most up-to date detentions who are not yet available on the list. Paris MoU website:

[http://www.parismou.org/Inspection\\_efforts/Detentions/Current\\_detentions/](http://www.parismou.org/Inspection_efforts/Detentions/Current_detentions/).

The number of times a ship has been detained during a 24 month period is because of the NIR (New Inspection Regime) now a 36 month period and is included in the list.

### **• DISCLAIMER**

The factual information in this list pertains to the situation at the time of the detention(s) which took place during the month under review. Before this period some ships may have had a different name, flag, call sign and/or recognized organization. Although the utmost accuracy has been observed in compiling data for this list, all responsibility is waived with regard to any inaccuracies.
